Official compatibility statements:
All the RAC EU models not listed in these tables have not been officially tested / approved for airCloud Home.
Hence such units are considered as not compatible and may not work properly with SPX-WFG02 / airCloud Home.
A communication alarm may be displayed on the gateway if it is connected to a non compatible unit.
In case a Wi-Fi connection is required for R410A units not listed above, Hi-Kumo devices shall be used.
